Subject Midco II Site - Gary Airport related construction/dewatering

History:

✉ This message has been forwarded.

Messrs Berman and Boice:

Attached is a copy of a letter that was sent to Lee Construction by fax today, regarding dewatering operations they are conducting across the street from Midco II.

Regards,

Bruce

**Re: Gary Airport Construction/Industrial Highway Location
Midco II Superfund Site - 5900 Industrial Highway**

Dear Mr. Lee:

We are writing on behalf of the Midco Remedial Corporation (MRC) that is undertaking response actions at the Midco Superfund Sites located in Gary, Indiana, including the Midco II site located at 5900 Industrial Highway.

It is our understanding that you are currently working on an airport hanger construction project, across the street of the Midco II Superfund site on property owned by the Gary Airport Authority; and that as part of your project you are dewatering the site to put in footings for a building.

We are putting you on notice that there is a possibility that your dewatering operations may draw contaminated groundwater from the Midco II site, or your system may just pull contaminated groundwater past our existing capture zone into uncontaminated areas. In the event that your operations may due so, you will have exposure for addressing the contamination you may pull toward your site. The MRC expressly disclaims responsibility for any exacerbation of current conditions that may be caused by your ongoing operations.

We urge you to coordinate your activities with the ongoing operations at the Midco II Superfund site in an effort to assure that the exacerbation of contamination described above does not take place. Please contact the MRC's project manager, Bill Bow of LFR at 630.660.9622, to coordinate your efforts. He serves as our lead contact and will be responsible for further coordination with our consultants from Environ working at the Midco II Superfund site.

We are providing a copy of this notice to USEPA and the Gary Airport Authority to confirm our prior telephonic notice to them of this situation.

Yours truly,

A handwritten signature in dark ink, appearing to read "Bruce White", is written over the typed name and title.

Bruce White
One of the Midco Trustees
